Dear Congressman Gosar:

We are writing to respectfully request your support for the Southeast Arizona Land Exchange and Conservation Act and the development of the Resolution Copper Mine. This land exchange not only represents a unique economic development opportunity for Arizona, but also serves to enhance our nations mineral and energy independence while conserving important recreational and conservation areas.

This land exchange would produce significant economic benefit for our state. Over the 40-year mine life, this project will generate \$61 billion in economic impact in Arizona including supporting 3700 total jobs. This revenue will directly benefit Arizona families and local communities in the form of \$220 million in annual wages.

This project will create jobs, jump start Arizona's economy, promote modern mining operations, and protect critical conservation and recreation areas. Its bipartisan support, including co-sponsors Representatives Ann Kirkpatrick and Paul Gosar, highlight the importance of this legislation, especially to rural Arizona.

Again, we strongly urge your support of this land exchange and the development of the Resolution Copper Mine.

Sincerely,

A handwritten signature in cursive script that reads "Barbara McGuire".
