Honorable Congressman Paul Gosar
U.S. House of Representatives
504 Cannon HOB
Washington, DC 20515

Re: H.R. 687: The Southeast Arizona Land Exchange and Conservation Act

Dear Congressman Gosar:

The purpose of this letter is to express my support of H.R. 687 referred to as The Southeast Arizona Land Exchange and Conservation Act. It is the purpose of this act to authorize, direct, facilitate, and expedite the exchange of land between Resolution Copper and the United States.

In review of the bill, Congress finds the land exchange will further public objectives such as the promotion of significant job and other economic opportunities in a part of the State of Arizona that has a long history of mining and that it would provide an opportunity for community expansion and increased economic development adjacent to the towns of Superior, Globe and Miami, Az.

As a native of the Globe/Miami area, I have copper running through my veins. H.R. 687 will stimulate the economies and promote job growth, not only in Arizona's copper country, but I also believe for the people of Laughlin and Bullhead City. As workers earn higher wages they have more to spend on recreation and that is where we come in. Laughlin and Bullhead City will get some of those new found dollars and that's a win for all.

I am more than happy to support the bill as written. If I can be of further assistance, please feel free to contact me.

Sincerely,

Sam Medrano
Bullhead City Council Member
