

Want to watch a bureaucrat squirm under questioning?

In only a few days, this one video [posted to my Facebook page](#) has already reached nearly **1 MILLION people**, had more than **6,200 individual shares**, had more than **206,000 individual views** and generated such a buzz that a Facebook representative personally reached out to my office to let me know that the video was "among the **top 10 Facebook posts by House Republicans over the last seven days**" ... you don't want to miss this.

I caught the Bureau of Land Management Director blatantly trying to mislead the American people about coordinating with the White House in order to lock up more lands in Western states. Under the guise of creating national monuments, the Obama administration and its environmental allies are sabotaging important energy development, grazing rights, water rights and other recreational activities with the stroke of a pen, regardless of local input from communities affected by these designations.

I refuse to allow this abuse to continue and demand answers on behalf of the millions of Americans harmed by these double-dealing land grabs. Click on the picture below to watch this can't-miss video burning up on my Facebook page. If you don't have Facebook you can watch the video by clicking [HERE](#). Click [HERE](#) to read about the action I'm taking to stop these land grabs.

**A RIDER FOR RYDER**

I would like you to meet Ryder Bliss, pictured above. Ryder loves to wakeboard on Lake Havasu. In fact, wakeboarding has helped him overcome the challenges associated with his genetic disorder.

Sadly, in May of last year, the U.S. Fish and Wildlife Service arbitrarily closed motorized boating channels in the north section of Lake Havasu because two residents made up lies and encouraged the agency to take this action without public comment. Now Ryder and countless others no longer have a safe place to wakeboard.

My office received so many comments on this issue that I sent several members from my staff (also pictured above) to visit the actual site in August of 2015 so they could see the area firsthand and report back to me.

My staff discovered that this section of Lake Havasu is the only place on the lake that Ryder and countless others feel safe because of the high speeds at which boats travel on other parts of the lake. Instead, the Fish and Wildlife Service expects him to wakeboard on the open lake where boats regularly travel as high 70 miles per hour. By closing this area, the Service has effectively closed the lake to a large population of tourists and locals.

Click [HERE](#) to read an article published by Today's News-Herald about how I am holding the U.S. Fish and Wildlife Service accountable for this terrible decision including introducing an appropriations rider to reopen motorized boating on this part of the lake. #LetRyderRide

### **THIS IS HOW WE DEFUND OBAMA'S EXECUTIVE AMNESTY:**

There seems to be a lot more talk than action lately about defunding Obama's executive amnesty. I'm not okay with that, so I led the charge this past week in submitting multiple appropriations requests to defund executive amnesty programs and to secure the border.

---

These include:

- [blocking all funds for executive actions dating back to 2011](#)
- [prohibiting all funds for sanctuary cities](#)
- [prohibiting all funds for Central American Amnesty flights](#)
- [building a secure fence on our southern border](#)
- [and fully-funding the State Criminal Alien Assistance Program \(SCAAP\)](#)

It's just that simple. The House is given the "power of the purse" to act as a check against a lawless executive branch. But my colleagues and I that submitted these requests can't do it by ourselves.

The only way our appropriations riders can be signed into law is if millions of Americans unite in demanding that the rule of law be upheld. Please help me spread this message by liking my Facebook page ([facebook.com/RepGosar](https://facebook.com/RepGosar)) and sharing my posts with your friends. Click [HERE](#) to learn more about these important appropriations requests.

**REP. GOSAR OP-ED FEATURED IN THE DAILY CALLER:**

**Nearly Eight Years Later, I've Finally Heard Back From The  
IRS**

**THE DAILY CALLER**

---

You can now officially add my name to the endless list of Americans who have fallen

victim to big government incompetence.

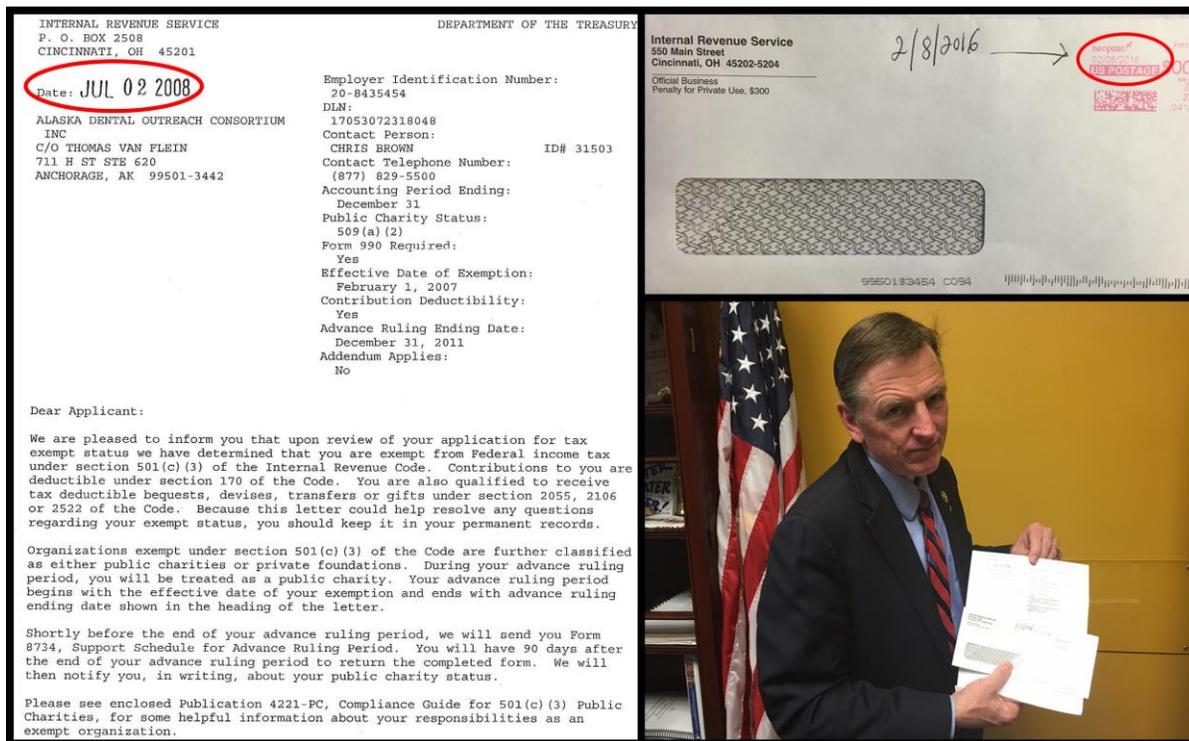

On July 2, 2008, nearly 8 years ago, I was part of a group that applied for tax exempt status with the IRS on behalf of a 501(c)(3) foundation that I helped set up named the Alaska Dental Outreach Consortium. This foundation simply was meant to help connect rural Alaskans with oral health providers throughout the state.

Fast forward 7 years, 7 months and 6 days into the future to February 8, 2016: I finally receive confirmation, from the now disgraced Cincinnati branch of the IRS, confirming that the Alaska Dental Outreach Consortium has officially been granted tax exempt status.

7 years, 7 months and 6 days.

Putting aside the fact that we now know the IRS is guilty of illegally targeting innocent Americans based on their political views; in what world is it acceptable for a government agency to take 7 years, 7 months and 6 days to respond to a simple request? Ultimately, the Alaska Dental Outreach Consortium is now defunct, no thanks to the breakneck speed of the federal government. Sadly, countless Americans have experienced similar treatment at the hands of a fundamentally flawed system.
