

Dear friend,

For far too long, Congress has allowed unelected bureaucrats and executive branch officials to slowly bend and break the laws of this country in order to further their own partisan political agendas. We have reached a breaking point where the American people have no faith in the fundamental checks and balances put in place by our founders to protect our liberties and freedoms.

On numerous occasions, EPA Administrator Gina McCarthy broke the law by lying to Congress in order to force misguided and overreaching regulations, which have no scientific basis, down our throats. Perjury before Congress is perjury to the American people and an affront to the core principles of our Republic and the rule of law...

**...and that is why this past week, I introduced articles of impeachment to remove Administrator McCarthy from office.**

Under Administrator McCarthy's direction, the EPA continues to enact job-killing regulations that increase food prices and energy costs for hard-working American families. Hundreds of thousands of jobs will be lost as a result of these new mandates, which [disproportionately impact the poor](#). This should be concerning enough, but to make matters worse, these regulations are not based on science and are being imposed through lies to Congress and the American people. We must hold D.C. bureaucrats accountable when they commit perjury or make false statements in order to implement President Obama's misguided agenda.

You can learn more about my efforts to remove Administrator McCarthy from office by

## Putting a Stop to Obama's Nuclear Deal with Iran

President Obama says there are no other options and that if we don't accept his deal, then we will go to war. What utter nonsense. The president has negotiated a ticking time bomb that will result in war, not prevent it. To make matters worse, President Obama broke the law by not transmitting the 'side agreements' to Congress and the awful negotiating skills of this administration have put our children and nation at risk.

Furthermore, the parts of the deal that have been made public are fundamentally flawed and allows Iran to continue to build a nuclear weapon, provides almost immediate access to \$100 billion and allows the world's leading state sponsor of terrorism to self-inspect and supposedly disprove prior weapons work. Iran will receive access to billions of dollars in return for nothing, and worse yet, this bad deal is not legally binding. Lifting sanctions because the president suddenly thinks we can trust Iran, without any verifiable evidence, is terrible foreign policy.

Proponents of this deal fail to realize that Iran's leaders are not rational actors and will not behave like other reasonable nations. The Iran regime believes the rules do not apply to them and the United States should act accordingly. I will continue to seek peace through strength and do everything in my power, and that the Constitution allows, to prevent this bad deal.

## Remembering September 11th, 14 Years Later

In case you missed it, click on the picture below to view my remarks from this past Friday, remembering and paying tribute to the victims and heroes of 9/11.

*Transcript: Much has been said and written about the events that took place 14 years ago on this fateful day. Words of remembrance, courage and sacrifice resonate with every single American. But I often find that these words fail to effectively capture the true magnitude of that day and the emotions so many of us feel within our hearts. How can our words truly capture the unexplainable courage of a firefighter who knowingly sacrifices his life to save those in distress? How can words describe the angst felt by the families of the innocent lives lost? The heroic actions that took place 14 years ago and the valor of ordinary citizens, first responders, and our men and women in uniform who protect this great nation deserve more than words. They deserve our actions. They deserve our complete and full devotion to upholding the cherished liberty which they gave their last breath to defend. So today, and every day, I challenge you to join me in earning the blessings bestowed upon our nation from God and the countless individuals who answered the call of duty when we needed them the most. Honoring them with our actions will speak far greater than our words ever could.*
