Dear Honorable Congressman Gosar:

I am strongly in support of your efforts to enact federal legislation approving the land swap necessary to allow Resolution Copper Company to open a copper mine in southeast Arizona. Reviving this mining operation will create much needed, good-paying jobs in our region.

I support H.R. 687 and am committed to working with you and your colleagues to move this legislation successfully through the federal process. I can't begin to express the importance economically that this project will be for Gila County and the State of Arizona.

Thank you for your leadership on this issue. I look forward to continuing to work with you to ensure that copper mining will remain a strong and viable industry in Arizona.

Sincerely,
