July 22, 2013

Dear Congressman Gosar & Congresswoman Kirkpatrick:

Thank you for the opportunity to comment on H.R. 687, the Southeast Arizona Land Exchange and Conservation Act of 2013 (hereinafter “bill”). The Nature Conservancy has no formal position on this legislation. Instead, this letter is meant to outline the important conservation value of “the approximately 3,050 acres of land located in Pinal County, Arizona”, known as “Seven B”, as part of the federal acquisition for conservation purposes.

The Nature Conservancy is an international, nonprofit organization dedicated to the conservation of biological diversity. Our mission is to conserve the lands and waters on which all life depends. Our on-the-ground conservation work is carried out in all 50 states and in more than 30 foreign countries and is supported by approximately one million individual members. We have helped conserve nearly 15 million acres of land in the United States and Canada and more than 102 million acres with local partner organizations globally.

The Conservancy owns and manages approximately 1,400 preserves throughout the United States—the largest private system of nature sanctuaries in the world. We recognize, however, that our mission cannot be achieved by core protected areas alone. Therefore, our projects increasingly seek to accommodate compatible human uses, and especially in the developing world, to address sustained human well-being.

In Arizona, The Nature Conservancy has created a dozen nature preserves and developed new funding sources for conservation throughout the state. One main focus of our work has been to protect one of the last few remaining undammed rivers in the State of Arizona, the San Pedro River.

The “Seven B” property contains nearly 7 miles of the lower San Pedro River as well as over 800 acres of ancient intact mesquite bosque representing what is probably the largest old-growth mesquite forest remaining in Arizona. As early as 1974, an Arizona Academy of Science report called for preserving the bosque as a scientific and educational natural area, and subsequent analyses by The Nature Conservancy and others have affirmed its conservation value. In addition to the mesquite bosque and river corridor, the Seven B contains an artesian well that has the potential for providing a recovery site for endangered desert fish species. Therefore, we support the federal acquisition of this parcel for conservation purposes.
Furthermore, the bill expands the San Pedro National Conservation Area to include the Seven B on
the lower San Pedro River. It will greatly assist the parties that share a vision for the long-term
protection and enhancement of the river’s natural values.

However, the conservation values of the “Seven B” property exist only in the context of an ability
to maintain the natural functioning of the larger San Pedro River ecosystem.

We thank Resolution Copper for opening a dialogue with its partner on the mine, BHP Billiton, to
discuss the future of the lands owned by BHP Billiton adjoining the “Seven B” to ensure their
permanent protection. These discussions are ongoing. As well, Resolution Copper has brought
together other nearby landowners on lower San Pedro River to discuss long-term strategies for the
health of the river.

In addition, we support the inclusion in Sec. 6(d)(2) the ability to provide funding for the
management and protection of lands acquired by the federal government by this legislation. We
believe this is important for the lands provided to the federal government by this legislation to have
an endowment to provide for their management. It is not uncommon to have such a practice in
administrative transactions with the federal government.

Thank you again for the opportunity for us to discuss the conservation values associated with the
legislation. We do have an open dialogue with Resolution Copper and Members of the Arizona
Congressional Delegation. We look forward to continuing to discuss the items outlined in this letter
as this important legislation continues in the U.S. Congress.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Patrick Graham
State Director
