

Dear Friend,

Throughout the month of August, I had the opportunity to travel all across the fourth district and meet with Arizonans from all walks of life, including veterans, farmers, business owners and teachers just to name a few. I had some great conversations and town halls listening to problems that many people are facing but more importantly I listened to the solutions and ideas that many of you offered to fix these problems. It's amazing sometimes how simple these solutions can be when you use common sense (something sorely needed in Washington DC).

I always say this everywhere I go and I'll say it once more: "the solutions to the challenges our country faces are not going to be solved by bureaucrats in Washington, but rather by hard working folks on the front lines of our economy".

I heard from an overwhelming number of you that Washington must act to create a better environment for job growth, fix our immigration crisis and continue to cut waste, fraud and abuse from government spending. As I return to Washington I will remember your comments and commit myself to developing solutions to fix these important problems.

PHOTO ALBUM FROM THE ROAD

On Thursday, August 28th, I met with local business owners in our San Tan Valley office for our "Meet-Your-Neighbor" Business event. It was a great gathering and I enjoyed the opportunity to build new relationships in the community.

Nothing I love more than spending time with my wife at the Payson Rodeo.

I met with Jim Salscheider, Lake Havasu Marine Association President and CEO. I presented him with the Congressional Record Recognition for LHMA's recent accomplishments. Thank you LHMA for continuing to provide a safe and clean lake and river environment and enhance the boating experience.

I was in Lake Havasu City for the Grand Opening of a new Goodwill. The company provides a critical service to local communities and the new jobs created by this store are of vital importance.

I visited the Kingman Regional Medical Center. I was able to speak with medical students and physicians in the Emergency Department. Thank you for your dedication to provide the best quality healthcare to the residents of Kingman!

I had a wonderful time touring the Bullhead City Boy and Girls Club with my friend Daisy Solis Esquer. Daisy was one of the 1st place winners for my 2014 Easter Card Competition this past Spring. I am grateful for her taking the time to show me around the Boys and Girls Club and introducing me to her mother and big brothers. I'm happy to have her friendship.

I met with the Arizona Lodging and Tourism Association, one of the leading public policy advocates for Arizona's growing tourism industry. They represent over 35,000 rooms statewide and 400+ members including hotels, B&B's and related industry partners.

I visited the Hart Prairie Preserve to take a tour and see how forest thinning is helping to make our state safer from catastrophic wildfires and our forests healthier.

I toured the United Cerebral Palsy (UCP) of Central Arizona campus which includes an Early Learning Center, Therapy Services and a Day Treatment Therapy for children and adults. UCP serves children and adults through comprehensive and innovative services designed to enable “Life Without Limits”. Since its inception in 1952, UCP has been committed to change and progress for people with disabilities and strives to ensure their inclusion in every aspect of society.

I had a productive town hall with the Apache Junction Tea Party. This great group is engaged in the important issues of today.

**REP. PAUL GOSAR - HEALING FIELDS - PRESCOTT VALLEY
REMEMBERING THE VICTIMS OF SEPTEMBER 11, 2001**

This past Saturday I was honored to participate in the opening precession of the Prescott Valley Healing Field of Northern Arizona. It was a special opportunity for all of the Northern Arizona community leaders to come together to show unity and support for the families who suffered the loss of loved ones in the tragic and horrific attack on the US on September 11, 2001.

Yesterday, I was in Apache Junction and held a town hall with the Association of Mature American Citizens to discuss important issues facing the senior citizens of Arizona.

Additionally, yesterday I was wearing an orange tie to show support of St. Mary's Food Bank. One in seven Arizona seniors chooses between buying food and medicine each month. You can help at St. Mary's Food Bank by joining me in wearing orange to spread the word and visit www.StMarysFoodBank.org to take action.

We live in an amazing district and state! I am so grateful to have the best job in the world representing a special community of patriotic and passionate Americans looking to build a stronger and more prosperous nation. I look forward to meeting more of you throughout the year. You can find more information about my upcoming events by checking out my Facebook page: <https://www.facebook.com/repgosar> or my twitter page: <https://twitter.com/RepGosar>

Please feel free to contact me here: <http://gosar.house.gov/contact-me> and stay engaged on all the important issues facing Arizona.

Sincerely,

Paul A. Gosar, D.D.S.
Member of Congress
