WILDFIRE
NEWS

Dear Friend,

I was honored to speak on Thursday at the dedication of the new John M. Roll U.S. Courthouse in Yuma. I joined former Congresswoman Gabby Giffords, Senators McCain and Flake, Mayor Nicholls of Yuma and others at the ceremony.

(Rep. Gosar speaking at the dedication, April 24, 2014)

I was able to take a tour of this new courthouse and it is remarkable. It is filled with natural light and the carpets look like an aerial view of Yuma County's agricultural fields. It's fitting that this impressive U.S. Courthouse is named after an impressive man, one who dedicated his life to justice and to upholding the rule of law.

(Rep. Gosar touring a courtroom in the new courthouse, April 24, 2014)

U.S. District of Arizona Chief Judge John Roll, who was killed by Jared Loughner at Gabby Giffords's event outside Tucson in 2011, served Arizona and our nation honorably for four decades. He was a wise and gracious man, who not only talked the talk but walked the walk. I hope that all those who work in the courthouse in the years to come will honor the legacy of Chief Judge Roll by executing the law with Lady Justice in mind: impartially, fairly and objectively – just as Chief Judge Roll did.

ObamaCare is a Complete Disaster

I've said all along that ObamaCare is a complete disaster. Now we've learned it's so bad that Secretary Sebelius attempted to solicit donations from an industry that her department is supposed to regulate in order to persuade folks to sign up. The evidence couldn't be more clear that ObamaCare just doesn't work. It's time for patient-centered, market-based health care reform along the lines of a bill I helped draft, the American Health Care Reform Act. Click [HERE](#) to read more.

We Must Responsibly Develop Our Resources

This week was National Parks week, giving us the opportunity to reflect on our country's natural beauty. Growing up in Wyoming and living in Arizona for most of my adult life has taught me that we must protect our environment while responsibly developing our natural resources. This is crucial to growing our economy and getting folks back to work, which is why I've called on President Obama to, among other things, approve the Keystone XL pipeline and end his administration's war on energy.

Around Arizona

My travels across Arizona continued this week. I enjoyed having the opportunity to meet new people, hear new ideas and learn new things. Below are a few pictures from my travels.

(Rep. Gosar touring TEP's Sundt Generating Station, April 22, 2014)

(Rep. Gosar meeting with the Hispanic Chamber of Commerce, April 22, 2014)

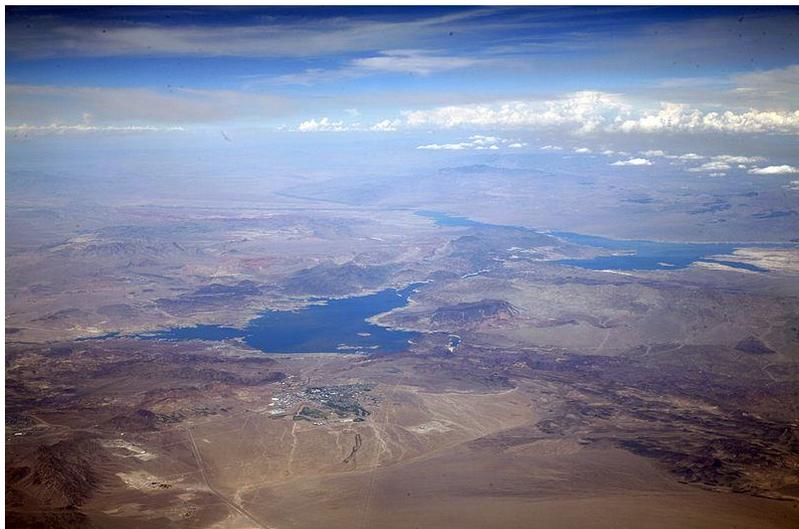

(Rep. Gosar presenting a small business certificate to the owner of the Daily Bread Bistro in San Tan Valley, April 18, 2014)

Government Waste of the Week

\$50 million: the cost of the National Technical Information Service, a federal agency that provides documents to other federal agencies that are mostly available online for free.

Congressional District 4: Did You Know?

Lake Mead, created by the Hoover Dam, is the largest reservoir in the United States in terms of maximum water capacity.

MARK YOUR CALENDAR

Monday, May 5, 2014
