### Need Jobs?

Dear Friend,

I know that families in the Fourth District are struggling. That's why I voted in favor of three jobs bills this week, all of which passed the House of Representatives. The first bill is the [Federal Lands Jobs and Energy Security Act](#), legislation that would expand onshore American energy production on federal lands and create new American jobs by streamlining government red-tape and regulations. The bill is a no-brainer. It will put families across the country back to work, especially in western states, where a significant portion of land is federally owned. Click [HERE](#) to read my official statement on this bill.

The second bill is the [Protecting States' Rights to Promote American Energy Security Act](#), legislation that would protect American jobs and energy production by limiting the Obama Administration's ability to impose duplicative federal regulations on hydraulic fracturing. This common-sense legislation is a job-saver. It will keep the federal government from wasting time and resources imposing a one-size-fits-all regulatory structure on hydraulic fracturing. Click [HERE](#) to read my official statement in regard to this bill.

The third bill is the [Natural Gas Pipeline Permitting Reform Act](#), bipartisan legislation that expedites the federal review process for natural gas pipeline permitting. This bill will ease permitting delays for natural gas pipelines, which will not only mitigate a potential shortage of gas-based electricity but will also create much-needed jobs. With so many families struggling to find work, we can't afford to continue to let government get in the way of job creation. Click [HERE](#) to read my official statement concerning this legislation.

### Fighting for Your Privacy; We Can't Ignore the Fourth Amendment

Thursday I introduced the [Reasonable Expectation of American Privacy Act](#). This bill would prevent the federal government from forcing or coercing companies to provide personal online passwords, unless a

specific warrant is obtained for a specific individual or group, each of which must be the subject of a relevant investigation.

Spying on hundreds of millions of Americans, from innocent grandmothers to high school students, using highly controversial and perverse legal interpretations is contrary to core American values. It's time for Congress to listen to the public outcry over our federal surveillance programs. These programs are intended to keep us safe from harm, not attach themselves to every facet of our private lives. Click [HERE](#) to read more.

### **An Unbreakable Code**

On Wednesday, I attended the Congressional Gold Medal ceremony in honor of Native American Code Talkers. These Native Americans transmitted code based on 33 tribal dialects during combat operations in World War I and II. I am humbled by their courage and sacrifice, especially to a nation that did not always allow them the same rights for which they fought. It was an honor to attend the ceremony.

(Emancipation Hall in the Capitol Visitors Center is packed for the ceremony, November 20, 2013)

### **Passing Legislation is Like Pulling Teeth**

Thursday I enjoyed speaking at the annual Oral Health Research Organization luncheon. I explained how my career as a dentist prepared me for Congress. After all, passing legislation is a lot like pulling teeth. As a dentist impersonating a congressman, I welcome most any opportunity I can get to speak to professionals in the oral health industry.

(Rep. Gosar speaking at the luncheon, November 21, 2013)

### **Join Me and Tell Us How Obamacare is Hurting You**

Is ObamaCare hurting you? Is it hurting your family or friends? Are you one of the millions who lost their insurance policy or saw their premiums skyrocket?

Let your voice be heard at a Congressional Field Hearing in Arizona's 4th District.

The House Oversight and Government Reform Committee, of which I am a member, is holding a hearing in Arizona entitled "ObamaCare Implementation, The Broken Promise: If You Like Your Current Plan You Can Keep It." The hearing will focus on taking testimony from witnesses whose healthcare plans were cancelled as a result of Obamacare. Click [HERE](#) for details.

### **20 New or Higher Taxes**

Obamacare contains 20 new or higher taxes. As the economy continues to sputter, the last thing we should do is raise taxes on families and small businesses. Obamacare is not only unworkable but it is also unaffordable. Click [HERE](#) to view a full list of all \$500 billion-plus in tax hikes over the next ten years.

### **Obamacare Malady of the Week**

58%: The percentage of Americans, a clear majority, who have an unfavorable view of Obamacare. The American people know a bad law when they see one. We need to replace Obamacare with patient-centered, free-market legislation.

### **Congressional District 4: DID YOU KNOW?**

The communities in the northwestern corner of District 4 — including Littlefield, Scenic and Beaver Dam — are isolated from the rest of Arizona by the Colorado River and the Grand Canyon. In order to reach the rest of our state by car, residents have to exit Arizona and re-enter through Nevada or Utah.
