## Protecting Arizona from Wildfires

Archived March 30

Dear Friend,

This week, I introduced the Catastrophic Wildfire Prevention Act of 2013 to put people back to work in our national forests, restore the environment and improve public safety. This legislation allows the Forest Service to partner with State Foresters to treat national forest land.

By cutting bureaucratic red-tape and streamlining the review process, this bill ensures that projects can move forward quickly when the public is at-risk. As we anticipate another dangerous fire season, with minor fires in Northern Arizona and Colorado already taking place, Congress must act now. To read more click [HERE](#).

### Happy Holidays

My wife and I send our best wishes to all those in Arizona and around the world celebrating Easter with their families. As we celebrate this Easter, let us all also

remember to wish blessings of and to pray for the safety of the brave men and women of our armed forces, who are away from their families during this holiday. Happy Easter.

I would also like to express my best wishes to everyone celebrating Passover. This festival expresses the values of every free society and its message of liberation is universal. Passover is a fitting time to reflect on those values of freedom and liberty we enjoy as Americans. I wish you a Happy Passover. Chag sameach!
