Congressman Paul Gosar
504 Cannon HOB
Washington, DC 20515

Dear Congressman Gosar,

As you know, there has been a fair amount of frustration in Arizona in recent years with our inability to get congressional approval of the land exchange required for the Resolution Copper Mine. Thank you very much for reaching out to Ann Kirkpatrick to present a united front on behalf of the citizens of Arizona for the passage of the Southeast Arizona Land Exchange and Conservation Act. The mine is vital to our state, for the jobs it creates and the long term economic impact. The proposed land exchange also trades valuable land in Southeastern Arizona that is important for the conservation movement.

It appears that we can create win-win scenario if we can get all of our representatives to work together for the passage of this bill. I acknowledge that there are issues to be resolved with some of the environmentalists and some of the Indian tribes, but I believe those can be addressed.

I sincerely appreciate your leadership and your support of this important legislation. If I can help in some fashion, please do not hesitate to contact me and I will do my best to support our interests.

Sincerely,

David S. Crawford
