What Went Wrong in Libya?

Archived 10/14

Dear Friend,

This week the House Oversight and Government Reform Committee and I questioned federal government officials, affiliated with the U.S. mission in Libya, regarding why multiple requests for additional resources and protections for U.S. personnel and facilities in Benghazi were denied.

Congressman Gosar questioned U.S. State Department officials over the Benghazi tragedy. Please click above to [watch](#).

A pattern of threats targeting the U.S. mission in Libya prior to the September 11th attack was recognized by the State Department, and yet the requests for increased security were

ignored.

This hearing was not only about piecing together what went wrong in Libya, but ensuring that such an attack on American embassies does not happen again.

Congressman Gosar spoke with [Cronkite News](#) after “The Security Failures of Benghazi” hearing. Please click above to watch.

I send my condolences to the families of those lost in this atrocious attack, and I remain committed to ensuring the safety of all of our Foreign Service members and facilities abroad.

Discussing Fast and Furious with the Arizona Citizens Defense League

Last week I was honored to speak at the annual meeting of the Arizona Citizens Defense League about how the people of Arizona and throughout the United States and Mexico will be living with the consequences of Fast and Furious for years to come.

The costs of the actions under Attorney General Holder's watch were not just the lives lost on American soil but those lost in Mexico as well.

It is past time to show not only the American people, but the Mexican people as well, that the United States still believes in justice and accountability—Attorney General Holder must go. That is why I voted to hold him in contempt, and why I am sponsoring a [House Resolution of "No Confidence"](#) in him.

Here to Help at The Prescott Valley Home Depot
