

Dear Friend,

This past week, we picked up a major win in the fight to stop Obama's illegal amnesty. On Tuesday, the Fifth Circuit Court of Appeals upheld the February ruling by U.S. District Judge Andrew Hanen who issued an injunction to stop President Obama's unconstitutional November 2014 executive immigration orders from going into effect.

This decision is a huge win for the rule of law and our Constitution. Article I gives Congress clear jurisdiction on immigration matters and the Obama Administration's rogue executive actions have clearly infringed on that authority. The list of federal judges who have ruled Obama violated the law is growing, and the opinion of the Fifth Circuit confirms the president's overreach. Needless to say, I am thrilled by the court's decision and will continue to do my part to rein in this unaccountable, out-of-control federal government that has chosen not to enforce our immigration laws.

Honoring the Life of Arizona's Favorite Son, Barry Goldwater

It was great to have the Goldwater family attend Friday's dedication ceremony for the Barry Goldwater Post Office in Prescott, Arizona. This is where "Mr. Conservative" launched his presidential campaign almost 50 years ago and it is only fitting that we dedicate this post office in his honor. It's important to note that the effort to have this post office named to honor Barry Goldwater was first initiated by the people of Prescott. Eventually, a petition was started to rename the post office and I was more than happy to introduce the necessary legislation to make the change possible which had the support of the entire Arizona delegation. Barry Goldwater's influence on

American history as well as the love of those who admired him cannot be understated. His commitment was first and foremost to the Constitution and to the people of Arizona whom he served.

Bill O'Reilly Reports on My Coach Only Airfare for Capitol Hill (COACH) Act

Luxury airfare accommodations for Congress utilizing taxpayer monies would be inappropriate in any fiscal climate, but at a time with a federal debt in excess of \$18 trillion, such expenditures are especially wasteful. Furthermore, if current regulations prevent men and women serving in the U.S. military from flying first-class, there is absolutely no reason Congress should be given a special exemption not offered to our nation's heroes. Legislation I introduced, called the COACH Act (H.R. 2210), has 19 bipartisan cosponsors and will end this double standard.
