

Dear Friend,

When I was first elected to Congress in 2010, I set out to meet with as many hard working Arizonans as possible. I brought the same approach that I had as a medical professional for 25 years where I asked “Where does it hurt?” and “How can I help?” You cannot fix a problem without first listening to the people affected by it.

After thousands of miles of travel and hundreds of meetings, coffees and townhalls, I have learned about what issues are important to YOU. Additionally, I have listened to YOUR solutions to today’s biggest challenges because the answers to the problems we face don’t come from Washington D.C.

[In the 113th Congress I was the most effective member in both Houses.](http://gosar.house.gov/2015-solutions-tour) With your help, I have delivered and will continue to take bold action and provide real leadership. Furthermore, this year I will be traveling around the state on a “Solutions Tour” to share with you the actions I am taking as your Representative to solve the real problems facing Arizona as well as our nation. Stopping Obama's Amnesty

This past week, I was extremely disappointed that Congress had a choice to stand against President Obama's executive amnesty, but failed to have the fortitude to reject this egregious overreach. I fear that our nation will look back on this decision and regret the unscrupulous precedent established allowing for ideological lawlessness which cannot ever be reversed. The consequences of a feckless balance of power are far reaching and will affect future events that we cannot begin to perceive.

For these reasons, I will never relent and never yield in my effort to return the balance of power in the United States to the American people and their elected Representatives. Nothing is more important than defending the rule of law and our Constitution.

That's why I'm leading the charge to investigate the very real possibility that the president already violated the Antideficiency Act with his executive amnesty orders on immigration.

On November 21, 2014, just one day after the president made his announcement regarding his executive actions on immigration, DHS posted 1,000 job openings—many of them permanent positions—signaling that the plans to make expenditures had been in place well before the president's announcement. The administration has also announced that they will lease a massive new office in Crystal City, Virginia to house the new employees. Media reports indicate that these actions alone will squander at least \$48 million in taxpayer money.

The Antideficiency Act clearly states "No money shall be drawn from the treasury, but in consequence of appropriations made by the law". This Act is derived from the Constitutional principal that only the Legislative branch of our government has the power to authorize government spending.

Congress has not authorized this amnesty program or appropriated money to hire staff and rent buildings to process these illegal applications. I will use every possible tool available under the law to hold this out-of-control Administration accountable for their actions. Click the picture above to learn more about the Antideficiency Act and the actions I am taking to #StopObamasAmnesty.

West Point Bound:

I want to offer my sincerest congratulations to Sierra Rosdahl of Prescott, AZ for receiving her appointment to the U.S. Military Academy. Sierra is currently a student at Prescott High School where she is the Student Body President and a member of the National Honor Society. Sierra also attended the U.S. Naval Academy

Summer Seminar and currently works in my Prescott office as an intern.

I am extremely proud of her and can't wait to see what she accomplishes at West Point!
