

IMPEACHING IRS COMMISSIONER JOHN KOSKINEN

This past month, I joined my fellow colleagues from the House Freedom Caucus in introducing a privileged motion to immediately bring articles of impeachment against IRS Commissioner John Koskinen.

Rather than cleaning house and restoring the trust of the American people, Commissioner Koskinen has continued the pattern of criminal behavior and lawlessness within the IRS. He has failed to comply with a congressional subpoena, failed to truthfully testify in front of Congress and is now chief commander for the cover-up of the targeting of innocent Americans by this rogue agency.

Alexander Hamilton wrote that the power to impeach a civil servant exists to protect the public against **“the abuse or violation of some public trust.”**

Take a minute to watch my conversation with FreedomWorks about how IRS Commissioner John Koskinen has violated and abused the public trust and must be impeached. WE THE PEOPLE deserve accountability from our government.

HOLDING HILLARY CLINTON ACCOUNTABLE FOR EMAIL SCANDAL

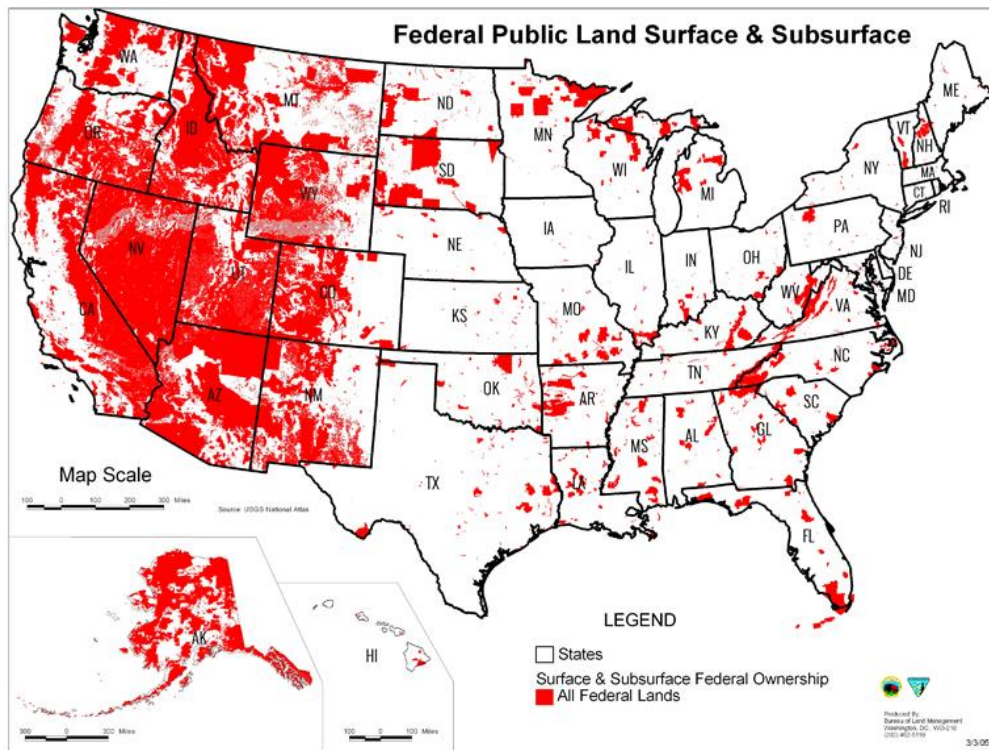

Two weeks ago, the House Oversight Committee held a hearing seeking to hold Hillary Clinton staffers accountable for setting up a private server for Clinton to use while serving as Secretary of State. The American people have a right to know just how deep this corruption goes and I pledge that I won't stop fighting to uncover the truth.

As long as Hillary Clinton continues to blatantly lie about her illegal use of a private email server, my colleagues and I on the House Oversight Committee will continue to hold her

accountable for this lawlessness. Period. Click on the picture above to watch my interview on Fox Business with Varney & Co. discussing our investigation.

THE FEDERAL FOOTPRINT: WESTERN STATES GETTING KICKED TO THE CURB

Earlier this month, I took to the House floor to discuss the growing size of the U.S. federal footprint. It's a conversation that many Americans, specifically those living East of the Mississippi River, have never had to think about.

However, in western states, like Arizona, we face unfair burdens on our communities due to the fact that over 90% of all federal land is located in the West.

Click [HERE](#) to watch my floor speech calling on Congress to shrink our 635 million acre federal footprint and empower western states to have a voice in determining our land management policies.

GOSAR EFFORT TO IMPROVE VETERANS CRISIS LINE BECOMES LAW

With over 500,000 calls received in 2015, the Veterans Crisis Line has proven to be an invaluable resource for saving the lives of our nation's veterans. At a time when we are losing **22 veterans every single day to suicide**, it is simply unacceptable for calls to go unanswered.

Ensuring that every single veteran can rely on a trained professional to immediately help them during dark times is literally a matter of life and death. I'm extremely pleased to see my legislative effort to improve the Veterans Crisis Line get signed into law this past week and hope this life-saving resource for our nation's heroes will now function as Congress intended. STANDING UP FOR ARIZONA'S FARMERS AND RANCHERS

Rural farmers and ranchers, like those in my home state of Arizona, deserve a voice in Congress that understands their irreplaceable value to the American way of life. The 2.2 million farms that cover the United States continue to put food on our tables and create a positive agricultural trade balance that fuels our economy.

I am incredibly humbled and honored to have been named a "Friend of the Farm Bureau" and will continue to protect the more than 21 million American workers who produce, process and sell our nation's food and fiber.

PRESCOTT DOCTOR APPOINTED BY GOVERNOR DUCEY

I want to give a special shout out to a great Arizonan, Dr. Pam Jones of Prescott, who recently was appointed by Governor Doug Ducey to fill a vacancy on the prestigious Arizona Medical Board that is responsible for licensing, re-licensing and oversight of Arizona physicians. Pam's educational and practical experience makes her an ideal fit for this appointment and I would like to congratulate her for this great achievement!

APACHE JUNCTION DETECTIVE NAMED AZ OFFICER OF THE YEAR

Earlier this month, 11-year veteran of the Apache Junction Police Department, Detective Francisco "Danny" Garcia, was named Officer of the Year by the Arizona Association of Chiefs of Police.

"Garcia has been involved in a number of high-profile undercover cases, which have resulted in numerous indictments and the recovery of stolen vehicles and construction equipment. He was even involved in the apprehension of a bank robbery suspect after inconspicuously approaching the suspect at a movie theatre, preventing the subject from entering a crowded public area."

Congratulations to Detective Garcia on receiving this great honor!

Congressman Gosar: Doing more with less at the nation's refuges

The American people, through the power of the ballot box, have given the federal government a clear directive: do more with less. Just like every hard working family. If working families have to make tough financial decisions and tighten their belts, the federal government must as well. This mandate applies to every single federal agency, including the U.S. Fish and Wildlife Service, which oversees the management of our national wildlife refuge system. Click [HERE](#) to read more.

THE DAILY CALLER

Why Is A Six-Year-Old Boy Influencing Obama's Refugee Policy?

President Obama's shameless attempt to use an innocent child as a political prop to push his misguided refugee agenda demonstrates that his way of thinking is more in-line with that of a six-year-old boy rather than that of a world leader. Click [HERE](#) to read more.

MARK YOUR CALENDARS - UPCOMING EVENTS:

CONGRESSMAN
PAUL GOSAR
is now accepting
**U.S. SERVICE ACADEMY
NOMINATIONS**

**U.S. MILITARY
ACADEMY** **U.S. NAVAL
ACADEMY** **U.S. AIR FORCE
